Nss Volunteers are made people aware by making painting for tobacco control'

Date:- 1<sup>st</sup> June, 2020

Program Co-ordinator: Dr. Brajesh

Kumar Program under: NSS unit of

Ranchi University

In recent times, the effect of tobacco is visible in most of the youth and it is growing very fast. It affects how you look and feel, your finances and the people close to you. When you smoke, harmful chemicals enter your lungs, move into your blood stream and spread through your body. There is no safe level of smoking. To reduce risk, the best option is to quit smoking. NSS volunteers made people aware by making paintings for tobacco control and upload on social media.
