

Ranchi University, Ranchi

7.2 - Best Practices

Title

On Air Broadcasting of Lectures by faculties through University's own Community Radio, Radio Khanchi 90.4 FM

Objective :

Fast and Wide spread of lectures among students. Ontime completion of syllabus.

Technology awareness among faculties and students.

Context:

During COVID period the teachers were asked to record their lectures which was broadcasted by Radio Khanchi and more than 40000 students of Ranchi University within the city and its periphery got benefited from the same.

Practice:

On Air lectures through radio is one of its kind concepts, all over India. Very few universities have taken such initiative. This idea is unique in higher education system.

Evidence of Success:

The idea was a great success as more than 40,000 students were benefitted from these lectures and performed well in their examination

Problems Encountered and Resources required:

Ranchi University has its own Community radio with a FM reach to 15 Kilometer so there was no additional expenditure on infrastructure.

Some of the teachers were not tech savvy and were not enthusiastic to record lectures in the beginning but online training enabled many teachers to record Lectures.

Notes:

It has become a consortium of more than 1600 lectures, available for students through YouTube, Instagram, Facebook and Twitter.
