## AIMS OF BACHELOR'S DEGREE PROGRAMME IN POLITICAL SCIENCE

---

### The broad aims of the LOCF for Political Science are:

1. The main objective of the course is to provide a comprehensive understanding of the discipline to the students who join at the undergraduate level in the University and Colleges of Jharkhand, India.
2. The students who join these courses are not necessarily trained in the fundamentals of the discipline, as they come from diverse disciplinary backgrounds.
3. The program aims at making them understand the fundamental concepts, theories, perspective sand ideological discourses in Political Science.
4. This will enable them to explain and evaluate the functioning of political systems and governments of diverse kinds along with their respective institutions, structures, and ideologies. Building a better society to live in has been a perennial question which all the disciplines of knowledge have pondered over and worked on, including Political Science.
5. The aim of the course is to expose the students to the diverse political philosophies, from the ancient to modern times, and the manner in which they have envisioned and engaged with the issues of rights, liberty, equality, justice, citizenship, constitution and constitutionalism.
6. The objective is also to train the students in understanding the public administrative system and public policy science. The course also exposes the students to interdisciplinary modules to demonstrate the interconnectedness of the discipline with other subjects and areas which do not essentially comprise the core of Political Science
7. The objective is also to understand the national interests of India in a comprehensive manner and assess the Indian endeavors and responses to emerging challenges and issues in a fluid and dynamic global scenario.
8. The course has been designed in such a way that every student is equipped with certain practical skills which can be used for seeking gainful employment if one exits after completing graduation.
9. The aim is also to train the students in research design and application of tools and techniques for empirical and normative research.
10. A concerted effort shall be made to provide knowledge and skill to the students so that they are able to pursue further studies in Political Science in related areas or multidisciplinary areas that can be helpful for self- employment/entrepreneurship.

---

## PROGRAM LEARNING OUTCOMES

---

**The broad programme learning outcomes in Political Science are:**

1. The students who opt for Bachelor's Degree Programme in Political Science generally are the ones who wish to get exposed to the core of several disciplines instead of moving towards specialization in one.
2. As the students are from a diverse disciplinary background, the course has been designed to teach them the core areas of Political Science such as political theory, Indian constitution and international relations.
3. The aim is not just to impart factual and theoretical information but also to develop critical thinking on political issues and phenomena.
4. The course contains a mixed bag of discipline-centric, interdisciplinary and skill-based modules. This will lay a strong foundation enabling students to pursue higher studies and research in the discipline as well as skills and techniques to get employment.
5. The course module seeks to enlighten the students about the functioning of the Indian Political System and how India manages its broad national interests in global politics.
6. The objective of the course is to educate students so that they become informed, reflective, active and responsible citizens of India.
